ALMOST INCREDIBLE NARRATIVE

Most Extraordinary Criminal Organization at the West.

Arrest of an Extensive Gang of Desperate Men in Michigan.

Over Thirty Justices of the Peace, Doctors, Judges, Constables, and others, in Prison, &c., &c., &c.

The Detroit Tribune of the 21st, contains the following extraordinary narrative. It is almost too strange to be-

We briefly announced on Saturday, the arrest of a gang of even in Jackson county, who were organized for the most refarious purposes that depravity could suggest. Our readers will remember that, for the last year or two the Central Railroad Company have been constantly an-noyed along their line, by persons whose sole occupation seemed to be placing obstructions on the road, and otherwise destroying the property of the company. At one time, so systematic had their work of destruction become, that the Railroad Company were induced to employ a couple of shrewd persons, whose duty it should be to travel along to line, and detect the offenders; but so well organized were the band, that for eighteen months they cluded the most persevering inquiries. Some for weeks ago, however, one of the persons employed by the company, obtained an inkling of the organization, and by adroit management succeeded in worming himself into the confidence of the initiated; but before they would trust him to any considerable extent, it was required as a proof of his allegiance, that he should fire the depot at Niles, on a certain night, provided it was not previously done by an individual from this city, who was to be sent on for that purpose. The night came, and to confidence of the gang, the depot was fired-all necessary precautions, however, having been made to avort

any serious damage to buildings.

The news that the depot at Niles had been set on fire, but fortunately discovered in time to prevent its destruction, at once gave to the new recruit the fullest confidence of the gang, and he was forthwith admitted to the most secret counsils of the leading desperadoes. Counterfeiting, horse stealing, incendiarism, burglary, chiects of this monstrous organization. One of their designs was to blow up the track and cars by an ingeniously contrived torpedo, so arranged as to be fired by the locomotive, and explode while the passenger cars should be over it. The informant continued to act with them until he had procured the names of thirty or forty fined principally to Leona, Centre, Jackson, Michigan, and to this city. Before plans had been matured for their arrest, the notorious Joe Dows, who, it is said, was the general of the concern, was taken from this city to sylvania, and the management of the gang devolved upon a fellow calling himself O. D. Williams, then in this city, but a resident of the State of New York. This person, it is ascertained, was to leave Detroit for Buffalo on Thursday night; and as his arrest at that time would be the signal for a general dispersion of his accomplices, it was determined to let him proceed, while an officer, for-nished with the requisite papers, should accompany him, and make the arrest during the passage, thus giving time to perfect a capture of his companious in this State. That arrest was made by Wm. H. Goodnow, of the Custom House, who was acting as United States Marshal and Williams was brought back to Detroit on Saturday

night, under e-cort of that officer.
On his way up. Williams requested officer Goodnow to there. This, when they got to the prison, Mr. G. consented to do, but received a reply that it was not then necovery, as the gentleman to whom he had written had also become an inmate under the same roof. On Friday rests in the interior, an extra train of cars was sent out from this city, with a large number of officers and assistrangements made and carried out, by leaving squadalong the line, that at Leona, Michigan, Centre, and Jackson, thirty-three men were arrested simultaneously about daybreak on Saturday morning, and brought in prisoners arrested are three justices of the peace, five men called dectors, one judge, and four constables latter belonging to the township of Leona-not an officer of which, from supervisor down to postmaster, but is said to be implicated. The following is a list of the persons

In this city Washington Gay and Erastus Smith were arrested on Saturday, and in the house of the former were found a variety of implements for burning buildings nd so constructed as to burn one hour, or three days before setting fire to the building. By one of these ma chines it has been discovered that the depot of this city was fixed last fell, which resulted in the loss of one hun dred thousand dellars worth of property. The arrests were made on writ from the United States

Court, for stopping the mail, and for counterfeiting United

### Daniel Webster and the Common Council of Boston-Shipwrecks, &c.

Boston, April 23, 1851.

The committee of the two branches of the Common Council met Mr. Webster yesterday, and Alderman Rogers presented the resolutions of the Board of Alderman inviting Mr. Webster to speak in Fancuil Hall, saying that he believed the resolutions were the true exponents of the feelings of that body. Mr. Webster thanked him, and stated that he should reply in writing. Another British schooner has come ashore at Cape

Cod, with all hands probably lost. A vessel of about 150 tons, bottom up, came ashore near Morroway Point, Chatham, on the 17th inst., but

disappeared in the gale of the next day. She appeared to be new, and is supposed to have been loaded with corn.

Athany, April 23, 1851. The Oswego Times, of this morning, says that three Carroll, engineers of the boat; John O'Connor, and James Church, waiters; and Thomas Quiggin, fireman, are there of the crew who are dead. Three are missing, and supposed to have been blown into the river. The jury returned a verdict that the explosion occurred from the want of water in the boiler.

Tenovro, April 22, 1851.

A great fire occurred this morning, at Kingston Forty houses have been destroyed in the block bounded ty Prince, Bagot, Wellington, and Queen streets, which constitute the principal part of the city. The progress of the fire has been arcested. The loss will be very heavy, but is not yet ascertained.

The Speaker announces, as the result of the ballot the election of Charles Summer by one majority, according to the report of a majority of the committee who

ounted the votes.

It was then moved by a whig that the report be recommitted to the committee, with instruction to report a vote which they had thrown out as scattering. This motion, after a debate of half authour, was carried without opposition, and the committee made a new report as

Whole number of colors.

Necessary to a choice...

Summer was again within one of the mark. The Hefused to adjourn by 32 majority, and a new baloit

ordered.

The most intense excitement prevalled throughout the city, and all the arenues of the State Monse were densely crowded. It was erroneously announced after the first of the ballots, that Sumner was elected by one majority, which caused the Commonwealth, (abolition newspaper.) to hang out about a dozen flags, which continued to ware in the breeze for a long time.

We subjoin the result of the twenty-second ballot:

Flour is not very active, but prices are steady. The rales have been 1,500 bits. Wheat is held above the views of buyers, and little is doing. Corn is in good request, at low prices, and the sales sum up 20,000 bashels, at 62c. for round yellow; 2,500 bushels are seed at 75c.; onts are steady, and 5,000 bushels sold at former rates. Small sales of pricon whickey, at 25c. The boats are in from Rochester, and the Buffalo boats are hourly expected.

THE U. S. RECEIVING SHIP NORTH CAROLINA, ORDERED TO SEA.—We learn that the U. S. ship North Carolina is releved to Philadelphia for the purpose of testing a dry dock recently established at that port for the use of our naval ships, and that the U. S. frigate Brandywine is to take her place at this port as receiving ship. We trust that the great port of New York is not to be left with a mere frigate, when she furnishes to government over three-fourths of the seamen employed in our naval sorvice. It would, no doubt, he very gratifying to the people of New York, to have either the Pennsylvania or the Ohio transfered to this port; the first is lying uselessly in a Frad hole at Norfolk; the other, at Biston, which was huilt at our navy yard, by Henry Eckford. We do not suppose that this movement has anything to do with our troubles with the Cast Soulouple, dies Faustus the First, nor with the Nearagus difficulties.

Death of the Archhishop-His Character-Pastoral Invitation Withdrawn.—The Express Robbery—Theatricals, &c.
At 9 o'clock, last night, the bells of the Cathedral and other Catholic churches commenced tolling, announcing to the city the sad—though not unexpected intelligence of the death of the Rev. Esmuel Eccleston, D. D., Archbishop of Baltimore. He died at the Convent of the Se ered Heart, in Georgetown, at half-past six o'clock last evening, in the 50th year of his age, and in the full pos-session of his faculties until the last moment. He was consecrated as Archbishop on the 14th day of September 1834, when but 34 years of age. When consecrated, he was deemed the handsomest man in the State of Maryland and although in latter years he had become quite lasty, his personal appearance and benignity of manner were such as to call forth the admiration and se-

quite likety, his personal appearance and benignity of manner were such as to call forth the admiration and secure the esteem and respect of all who came in contact with him. He practiced the motto of his great Master, preaching, "peace and good will to all mankinsh," studiously avoiding and discountenancing all those rancorous and unchristian controversies that beget nothing but enmity and uncharitableness. In early life he was an Episcopalian, but having been educated in St. Mary's College, he became a Catholic shortly after reaching manhood. His brother is Judge Eccleston, of the Mary-land Judiclary, a chaunch Episcopalian. 2012

It was announced some days sines, that the Rev. Thomas K. Beecher, of Boston, had been elected pastor of the wealthy Associate Reformed Church of this city, generally known as Dr. Duncan's. He had previously presched hers, and gave general satisfaction, especially on the subject of slavery, taking the ground that it was a question between man and his Master, and should never be brought into the pulpit. The committee appointed to inforts him of his election, laws since corresponded with him, and he beaving informed them that they had elected him on the faith of what he seemed to be, rather than what he really was," they have pursued the inquiry further, and become satisfied that he is as deeply tainted with fanatical abolitionism as the Rev. Theodore Parker. The consequence was, that on the two.

Sin.—If you san find space in the columns of your next publication. I shall feel obliged by your inserting a few remarks from me with respect to two letters which appeared in the Abiase of Menday hat—one headed as above, the other, "The United States Clipper-ship Typhoon." These letters appear to me to place our country, and particularly my native town, Liverpool in a very humiliating and invidious position. The me so-licits £5 subscriptions to build an English clipper ship; the other shows an American clipper already built by a single firm in New York, and now on her way to the Mersey. Sindes of my fathers: where is the spirit that used to animate Old England? Whilst we are talking. America is acting. I have just returned from that country, and feel competent to express an opinion on it, as well as a nuy own. I cannot help aging, that in point of energy and action, America is awake—England is nelseen. During a few weeks visit in New York, in January inst, I myself saw building and built, in that and the neighboring ports, at least a dozen first class clippers, of from 100 to 1,400 tons, of faulties model and symmetry, and as superior to the far-famed old class of Baitlm reclippers as an American Liverpool liner is to an old British builseen of the form for the say that while we are rained still class of Baitlm reclippers as an American Liverpool liner is to an old British builseen of the far repeat of our navagation laves—the proceeding Edwin and Sammery, and the repeat of our navagation laves—the process government.
